Klein High School

Houston, TX | Graduated May 2025

High School Diploma

EXPERIENCE

Product Builder & App Creator

November 2025 – Present

Independent — ManzilTracker & SchoolTrack

Houston, TX

- Conceptualized, directed, and shipped **2 live products** — an iOS App Store app (ManzilTracker) and a web platform (SchoolTrack) — by defining full product requirements and directing Claude AI as the development engine.
- Defined all **user flows, feature scope, and role-based access** for each application, making every product decision from blank page to deployed product entirely independently.
- Managed complete product lifecycles end-to-end: problem identification, requirements, design direction, iteration, testing, and **App Store / Vercel deployment** with no team support.
- Identified and resolved a **critical architectural issue** in SchoolTrack between the homepage's cloud-sync promises and the privacy policy disclosure, demonstrating product quality ownership.

Founder & Business Owner

August 2025 – Present

On The Spot Auto Spa

Houston · Spring · The Woodlands, TX

- Founded and scaled a mobile car detailing business from zero, building a **recurring client base across 3 cities** through Nextdoor and targeted social media marketing campaigns.
- Independently manage all business operations — scheduling, pricing, invoicing, supply procurement, and client relations — while maintaining a full-time university course load.
- Applied entrepreneurial problem-solving to **optimize service workflows** and grow brand presence in the greater Houston area.

Youth Instructor & Educator

September 2025 – Present

Woodlands Community Center

Houston, TX

- Design and deliver structured lesson plans for youth across multiple age groups, building strong **communication, leadership, and classroom management** skills.
- Track individual student progress and adapt teaching methods to improve learning outcomes and student engagement.

Academic Tutor

June 2023 – October 2024

Kumon North America, Inc.

Houston, TX

- Provided personalized math and reading instruction to **10+ students** across elementary through high school levels over 1.5 years.
- Tracked individual student progress and communicated performance updates to parents, demonstrating accountability and a results-driven work ethic.

PROJECTS

ManzilTracker — Qur'an Memorization iOS App

Nov 2025 – Jan 2026

Product Owner & Creator | Live on Apple App Store

- Sole creator of a **published iOS application** live on the Apple App Store — directed Claude AI to build the full product, serving Qur'an teachers, students, and parents with real-time memorization tracking.
- Designed multi-role user system with distinct dashboards for 3 user types; managed App Store submission, review process, and launch entirely independently as a first-year college student.

SchoolTrack — School Management Web Platform

2025 – Present

Product Owner & Creator | Live on Vercel

- Built and deployed a **cloud-based school management platform** on Vercel using AI-directed development; features student and classroom
